Atrium windows and doors for new construction are precision engineered to deliver the stability, quality and energy efficiency that homebuyers value most—complemented by true and lasting beauty. Every Atrium window and door is designed to meet the strictest building codes: yours. They’re the perfect choice for your new construction projects.

**Premium Vinyl Construction**
Practically maintenance-free, Atrium premium vinyl never needs painting or refinishing, and creates tight seals that dramatically reduce drafts so your homeowners save on heating and cooling costs in any season.

**Easy Care Beauty**
Our windows tilt in for easy cleaning, and our vinyl never peels, cracks or warps so you can wipe it clean in a snap.

**Energy Efficient Glass Systems**
Options abound to give your customers state-of-the art energy efficiency, including Low-E glass and Low-E glass with argon gas.

**Atrium Assurance**
Your customers can trust that they’re protected by a limited lifetime warranty on vinyl and working parts and 25-year insulated glass protection on each window (see actual warranty for complete details).
At Atrium, we hold ourselves to a higher standard. Every window and door goes through rigorous quality control measures at each stage, from design to delivery. Our windows and doors for new construction are no exception. With a full range of design options and integrated installation features, they’re engineered for error-free installation and ultimate customer satisfaction.

**Fast, Easy Installation**

New construction windows and doors have integrated features that ensure smooth, easy installation.

- Pre-punched nailing fins and integrated J-channel design*
- Optional factory mulling of twins and triples
- Wood jamb extender options to eliminate “drywall return”
- Special product identification number (PIN) sticker on each product makes ordering replacement parts easy

**Custom Shapes, Styles and Sizes**

From octagons and trapezoids to full circles, half rounds, eyebrows and more, we can custom craft any window to help make your homes stand out.

- Standard sizes are available, plus a full range of architectural options to accommodate any building style
- Factory mulling is available for quick, seamless installation of twins and triples
- Available colors: white, almond or clay
- Operable eyebrows & half eyebrows available in Series 150/160

HIGH PERFORMANCE, 
ENERGY EFFICIENT GLASS SYSTEMS

Atrium windows and doors are engineered with state-of-the-art glass technology to give you outstanding thermal efficiency. With a full range of glass options and special insulated spacers, we have a glass package to fit any climate need or budget.

Low-E Glass
Low-E glass is coated with a microscopic layer of silver that reflects radiant solar energy while permitting visible light to pass through the glass, providing more comfort and lower energy costs.

Low-E Glass + Argon Gas
Argon gas works like an insulating blanket between two panes of glass to further improve thermal efficiency and decrease outside sound levels.

Ultra Low-E Glass + Argon Gas
Choose our ultimate glass package for optimal energy efficiency and maximum cost savings. Ultra Low-E glass offers three invisible layers of silver coating in addition to the superior thermal performance of argon gas.

Low-E glass reduces heat gain from the sun in the summer, keeping your home cooler.

In the winter, Low-E glass lets the warm solar rays in while blocking the heat in your home from getting out.

ENERGY STAR compliance available in all series. Verify product specifics before ordering.
