Piva Group was set up in Italy in 1986 to manufacture insulation panels, doors and windows made of various combinations of materials, primarily aluminium and PVC for the building trade. The search for new techniques to develop innovative products has made the Piva brand known in Italy and internationally, especially in Spain, USA, Czech Republic, United Kingdom and Australia, countries where subsidiaries have been established in over the past 10 years.

Today, Piva is a prestigious name in the building industry, thanks to its production versatility, its product quality and its wealth of experience.

A company that is always ready to match its customers’ needs, where Future is the watchword.

Piva Group Worldwide
Doors and windows with character

Choosing the doors and windows for your home is an important decision, not only in terms of aesthetics, but above all for functional reasons.

A good door or window, to serve us well, must implement a number of primary characteristics including insulation against the heat in summer and the cold in winter, good acoustic comfort and protection against break-ins.

Such an important choice cannot be left to chance: it must be handled by high quality products, like the ones we manufacture.
Changing your doors and windows is a good investment, for many reasons:

- **Old doors and windows**
  - draughty
  - high maintenance
  - poor sound insulation, more noisy
  - no design

Old doors and windows
a good investment, for many reasons:

- zero maintenance
- good thermal insulation
- design and style
- sound insulation, more comfort

Vinyl Windows
64 Series Vinyl Windows
Single Hung

- Drywall pass-through window available.
- Sloped Sill for positive water drainage
- Pre-punched integral nail fin for easy installation
- Tilt take-out bottom sash for easy bottompaint cleaning

High-Performance Features & Benefits

- Smooth operating constant force balance system
- Metal reinforced meeting rail with true interlock system for added strength and security
- Dual felt wool pile weather stripper for maximum air leak protection with foam filled bulb seal at bottom of operating sash
- Fusion-welded corners along with double wall frame provides added strength and insulation
- Interlocking sweep lock with hidden zinc keeper for added security (passes forced entry test)
- Full Aluminum reinforced sash
Some typical single hung grid patterns:

- no grids
- colonial
- perimeter
- praire

Full family of Single Hung, Single Slider, 3-Lite Slider and Direct Set Picture Window. Continuous head and sill factory mulling standard – optional field mullion.

Insect screen available (not intended as a safety screen to stop children from falling through an open window)

Geometric and architectural shapes. Limited Lifetime Warranty. Sash limiters available. Dual lift handles available and Oriel and cottage configurations available.
64 Series Vinyl Windows
Horizontal Sliding Window

High-Performance Features & Benefits

- Fusion-welded corners along with double wall frame provides added strength and insulation
- Metal reinforced meeting rail with true interlock system for added strength and security
- Pre-punched integral nail fin for easy installation
- Insect screen available (not intended as a safety screen to stop children from falling through an open window)
- Interlocking sweep lock with hidden zinc keeper for added security (passes forced entry test)
- Full Aluminum reinforced sash
Some typical horizontal sliding grid patterns:

Sealed insulating glass with Duralite metal free insulating glass system maximizes thermal performance and reduces condensation. 3-lite end vent available. Limited Lifetime Warranty
64 Series Vinyl Windows
Casement and Awning Window

- Smooth operating, weather resistant multi-point locking hardware
- Dual felt wool pile weather stripping for maximum air leak protection
- Egress hinge available
- ¾” grids between the glass available

High-Performance Features & Benefits

- Fusion-welded corners along with double wall frame provides added strength and insulation
- Dual compression seal weather stripping for maximum air leak protection
- Pre-punched integral nail for easy installation
- Insect screen available (not intended as a safety screen to stop children from falling through an open window)
- 7/8”, 1-1/8” or 2” SDL (simulated divided lite) available
Some typical casement/picture window grid patterns:

- no grids
- colonial
- vertical
- perimeter
- diamond

Full family of Casement, Awning, Direct Set Picture Window and Sash Set Picture Window. Continuous head and sill factory mulling standard – optional field mullion.

Sealed insulating glass with Duralite metal free insulating glass system maximizes thermal performance and reduces condensation.

Available glass selection: Low E glass, obscure glass, tempered glass, rain glass and gluechip glass, 5/8” I-G Standard – ¾” I-G Optional. Limited Lifetime Warranty
75 Series Vinyl Windows
75 Series Vinyl Windows
Single Hung

- Sloped Sill for positive water drainage
- Pre-punched integral nail fin for easy installation
- Constant force balance system
- Tilt-in bottom sash for easy cleaning

High-Performance Features & Benefits

- Brickmould face for an attractive wood look with integral "J" channel for convenient economical siding return
- Metal reinforced meeting rail with true interlock system for added strength and security
- Dual felt wool pile weather stripping for maximum air leak protection with foam filled bulb seal at bottom of operating sash
- Fusion-welded corners along with double wall frame provides added strength and insulation
- Drywall pass-through window available
- Full Aluminum reinforced sash

Casement Window meets AAMA Grande 50 Performance and above.

Full family of Casement Awning, Direct Set Picture Window and Sash Set Picture Window

Continuous head and sill factory mulling standard – optional field mullion - Color matched folding crank handle - Limited Lifetime Warranty
64/75 Series Vinyl Door
Sliding Patio Door

High-Performance Features & Benefits

- Integral interlock reduces air and water infiltration
- Dual compression seal weather stripping for maximum air leak protection
- Fusion-welded corners along with double wall frame provides added strength and insulation
- Pre-punched integral nail fin for easy installation
Patio door meets AAMA class 25 performance.

Sealed insulating glass with duralite metal free insulating glass system maximizes thermal performance and reduces condensation.

The smooth operating, weather resistant metal tandem rollers. Weather resistant color matched locking hardware secures the sash with one easy to use lever. Insect screen available (not intended as a safety screen).

Available glass selection low e glass, obscure glass, tempered glass, rain glass and gluechip glass

An elegant choice of colors

From ancient times, colour has played a fundamental role in the life of man. History has always been rich in colors which, when used with skill, never fail to evoke unique, indescribable emotions and sensations.

Colors beautify, complete, outline, detail and highlight, and we offer a vast range of colors and finishes so that you can choose the look you desire for the perfect match of functional and personal architectonic styles.

- Clay vinyl

Laminated colors available
- Bronze
Accessories that make the difference

Blink blind system

In Blink Blinds+Glass system, the blind is encapsulated within two glass panes, i.e. in an insulating glass unit. The movement of the blind, for manual or motorised systems, does not compromise the insulating properties of the double glazing unit and is performed in a totally sealed environment.

The Blink Blinds+Glass characteristics ensure total protection against dirt, dust or weather conditions, and therefore blinds do not require any maintenance. The magnetic components have an almost indefinite life cycle having a loss of magnetic attraction of around 2% for 100 years.

The wide product choice and versatility of operation make Blink Blinds+Glass systems suitable for all types of framing systems.

Why choose PVC doors and windows

PVC doors and windows are fully-fledged furnishings, architectonic elements which dialogue with contemporary architecture and satisfy its requirements for energy efficiency and sustainable construction. Piva Group doors and windows are tailor made to satisfy the client's needs for style, security and design. Doors and windows created to be unique, to interact with light and give each room its own unique character. Each PVC door or window is made with tested raw materials to ensure that it provides unparalleled quality and security.

- Maintenance free
- Unchanging and durable
- Fire resistant
- Sound insulation
- Thermal insulation
- Completely impermeable to water
- Weather resistant
- Saline fog resistant
- Energy saving
- Recyclable
